DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see remarks, filed 8/21/2006, with respect to the Smith reference have been fully considered and are persuasive. The non-final rejection of 4/20/2006 has been withdrawn.

Allowable Subject Matter

2. Claims 1-22 are allowed.

3. The following is an examiner's statement of reasons for allowance: Applicant's claimed network port structure which notifies other nodes in a clustered computer system of the presence of data in dedicated communication registers is distinguished over the prior art. Multiple searches of the prior art did not locate network ports directly connected to adjacent nodes in a clustered computer system, or the communication of data in such a system based on the presence of data in an associated communication register.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
